

MOSAIC Meeting Notes

October 2006

Meeting Notes

Thanks to all who attended (8 people and 2 new members). Welcome Noelle and Lucy. Thanks as always to Dr. Danny for attending and answering multiple questions.

-Don't forget to make a note of the new email at admin@mosaickids.org

-Thanks to Dr. Danny, he has secured SkyRidge for our next meeting and possible future meetings. We will be in one of the classrooms at SkyRidge for our November 6 meeting. I will send out details when I get them! The classroom holds about 20 and is around \$6 each meeting and there is a boardroom we will try to get which holds about 30 and is \$12. I'll pay for November as we check it out and see how it is. Julie Ham is going to see it on Wednesday and make sure it will work for us. I think it will be great to secure a location, then I can start printing up new fliers for our group. I have grown tired of the lack of response from the Lone Tree Library. Dr. Danny, my fax # at home is 303-850-7998.

-Hopefully, the website will keep coming along this month.

-I put the non-profit status on hold for now until I get the website up and running and the location for 2007 for our meetings secured. I have most of the base information I would need to take MOSAIC non-profit and there are a lot of details.

-Please email any restaurants you would like added to the restaurant list -both bad and good!

Some suggestions at our meeting-

Good-TGI Fridays at I-225 and Alameda. At night, ask for John Bhai (his daughter has wheat allergies) and he will cook food to your special order. During the day, ask for Glenn.

Good-Red Robin depending on location. Be sure to ask if they use a separate fryer. 285 and Wadsworth and the Havana location are good.

Bad-Red Robin in Parker

Bad-Little Ricky's in Parker kicked Julie Ham and family out because they brought in food for Chase. Even after explaining his allergies, they kicked them out.

Good-Yanni's on Monaco at Evans

Good/Bad-McDonald's, Wendy's, Burger King

Good-Maggiano's (south location) call ahead and speak to the chef

Good-Chipotle

Good-Hickory House in Parker (is this one still good???)

BAD-Chick Fillet

-Please email any websites you like and I will include them on website list-current email list attached

GENERAL CONVERSATION:

-One member had a bad experience at Parker/Adventist hospital where they said her child wasn't having an allergic reaction, but the flu...They didn't even have food allergies as a check off in the computer. Not a very educated hospital staff on food allergies that night. Make sure you are your child's advocate-you know them better than anyone.

-Be careful of the "fancy" and pretty medic alert bracelets and ones that go on the kid's shoe strings. Paramedics may not see these and we may need to stick to the dog tags and plain bracelet style.

-Some ideas for schools is to practice what would happen if your child did have an allergic reaction. Could the nurse be found, could the epi-pen be unlocked, how long would that take???

-40% of all eczema cases are related to allergy, that means 60% aren't

-I'm going to send out the Food List, some requested it again

DON'T FORGET the Halloween Party - Sunday, October 29 from 1-3pm at my house - 6051 E. Dorado Ave., Greenwood Village, CO 80111. I will send out another reminder closer to the date to get RSVP's.

Our next meeting is at SKYRIDGE HOSPITAL at I-25 and Lincoln. Details to follow in a later email.

Thank you for all attending!!!!
